Summary

Currently studying computer science, I am a responsible and organized individual with strong technical skills. I have hands-on experience in web design, game development, and programming, with a strong interest in expanding my professional experience. I can independently solve problems and communicate effectively.

Experience

Although I don't have formal work experience, I have completed various independent projects as a hobby, including developing games in Unity Engine and converting designs into responsive websites. These projects have built up my problem-solving and bug-fixing abilities, providing practical experience in testing and development.

Education

Student – Going through a computer science (English) program, 3rd year.

Georgian Technical University, Tbilisi, Georgia.

Certifications

- Responsive Web Design Certification (freeCodeCamp)
- JavaScript Algorithms and Data Structures Certification (freeCodeCamp)
